

Message to @DrEricDing and @MelissaFleming

Joe Biden has donated millions of doses of vaccine to Thailand. But it's like these doses have disappeared in the thin air since young people had to take to the streets to demand **quality vaccines** for caregivers. Nearby in Myanmar, the Civil Disobedience Movement is appealing to medical professionals around the world to support their colleagues in Myanmar who are constantly persecuted just for doing their job. So, **if you really want to help the people of these countries, boycott the companies that directly or indirectly enrich or support the corrupt leaders of these countries. It's that simple!**

Message aux @DrEricDing et @MelissaFleming

Joe Biden a donné des millions de doses de vaccins au Thailand. Mais c'est comme ces doses ont disparues dans l'air puisque les jeunes sont descendus dans la rue pour réclamer des vaccins de qualité pour les soignants. Pas loin de là au Myanmar, l'organisme Civil Disobedience Movement lance un appel aux professionnels de la santé du monde entier pour qu'ils soutiennent leurs collègues au Myanmar qui sont constamment persécutés simplement parce qu'ils font leur travail. Alors, si vous voulez vraiment aider les populations de ces pays, boycottez les entreprises qui enrichissent ou soutiennent directement ou indirectement les dirigeants corrompus de ces pays. C'est aussi simple que ça!

Civil Disobedience Movement @cvdom2021

In short,

- cut **the revenue flow to terrorist SAC group**

- cut **all kinds of international recognition**

- cut **impunity**

We want to appeal to medical professionals around the world to support your colleagues in Myanmar who were persecuted just for doing their jobs. If caring for patients in Covid-19 era is challenging, it's totally unbearable when your clinics could be raided by soldiers any time.
