

**Let's be clear** : the chaos in Canada today is largely due to the badging of the mismanagement of the pandemic by **the gang of criminals in power**. Flagrant errors are tolerated or passed over in silence, the most vulnerable are sacrificed with "calculated risk" formulas. As for the doctors of the public health directorate, their criminal political accomplices in power protect them against possible prosecution for their murderous decisions. In the end, these are lives lost. So take the initiative to fight to protect yourself and your loved ones from this virus. Write down everything, especially denounce inconsistencies and injustices.

Les erreurs flagrantes sont tolérées ou passées sous silence, on sacrifie les plus vulnérables avec des formules "risque calculé". Quant aux médecins de la directions de la santé publique, leurs complices politiciens criminels au pouvoir les protègent contre des poursuites éventuelles de leurs décisions meurtrières. Enfin de compte, ce sont des vies perdues. Alors, prenez l'initiative de vous battre pour protéger vos proches et vous contre ce virus. Notez tout, surtout dénoncez les incohérences et injustices.
