

Since the start of the covid-19 pandemic, certain restaurants or businesses that respect public health, masks, distancing, etc. still work. It is therefore time for elected officials, **in particular politicians who are campaigning for the 2022 mid-term**, to send the message to the grandfather in the White House to set good examples. It is even more important now that **democracy** is threatened by ambient madmen everywhere in the world including at home. **We must restore public confidence** with more adequate apolitical management of this cursed virus that has been poisoning our lives for more than 2 years. Imagine the damage and the logistical problems caused every doctor is affected by this virus. **Who do you think loses?**

Depuis le début de la pandémie de covid-19, certains restaurants ou commerces qui respectent la santé publique, les masques, la distanciation, etc. fonctionnent encore. Il est donc temps pour les élus, notamment les politiques qui militent pour la mi-mandat 2022 de passer le message au grand-père à la maison blanche de **donner de bons exemples. C'est encore plus important maintenant que la démocratie est menacé par des fous ambiants partout dans le monde y compris chez nous.** Il faut restaurer la confiance du public avec une gestion apolitique plus adéquate ce maudit virus qui nous empoisonne la vie depuis plus de 2 ans. Imaginez le dégât et les problèmes logistique causés chaqu'un un médecin est touché par ce virus. Qui perd selon vous?

*)Nili Kaplan-Myrth MD PhD @nilikm

Day 6 for me, 8 for husband. Still sick. Cancelled next week of clinic, will not **risk giving #COVID19 to patients**/staff. Daughter day 4, miserable with sore throat. This is the result of politicians pandering to individuals, shirking responsibility. Leaders "chose" this for us.
