

Important point, Musk and Trump coup:

1- **Zoe Tillman**, New overnight: A judge temporarily blocked Elon Musk's DOGE team access to some Treasury Department information after a group of 19 states sued Trump and Treasury Secretary Scott Bessent for allowing it, pending hearing next week

BUT, even the Supreme Court is not on our side.

2- We may see "rulings from this Supreme Court that narrowly limit what Trump can do while simultaneously expanding what unelected courts can do, specifically Republican courts, to frustrate a number of democratically passed laws in the future."

3- **Laurence H. Tribe** : Thus far, every case in which aspects of the Musk/Trump self-coup have been challenged has resulted in defeat for the Muskies. It's roughly 12-0 now.

SO. you will have to put more pressure to stop Musk, impeach Trump, JD Vance, because Musk is an anti-democracy illegal immigrant goon from South Africa who is bent on stealing our data. So, our data could be **on Wikileaks** soon, according to **Dave Troy**. Trump/JD Vance are destroying our nation, They are the enemy of America. Feb. 8, 2025
