

Message to Canadians, there is a **by-election in Alberta on June 23rd**, we have technologies that allow us to help our neighbours make the right choice. because today, **fascists** are everywhere, especially this **Danielle Smith** from **Alberta**, in order to cling to power, is ready to court **the criminal Trump**. It uses tactics to seek votes among citizens **who are not well informed**. So it's simple, if one of our family members has befriended **the mafia**, sooner or later we will have **problems**, so please, if you have some time between **now and June 23, 2025**, help the **NDP** get its candidates elected in 3 regions: **Olds-Didsbury-Three Hills**, **Edmonton-Ellerslie**, and **Edmonton-Strathcona**. Make a donation if you can, or volunteer remotely to **make Albertians understand that the UCP party does not reflect their values**. For example, while Canadian citizens are fighting against Donald Trump's **unjustified tariffs**, **Danielle Smith** is restocking Alberta shelves **with American alcohol**! According to **Naheed Nenshi**, leader of the Alberta NDP. Worse still, the United Conservative Party (UCP) is poised to make **COVID-19 vaccines expensive** (the price could reach **\$110 per dose**) and hard to obtain, according to **David Climenhaga/albertapolitics.ca**. So **MY FRIENDS**, let's help ourselves by helping him! June 18, 2025

Message aux Canadiens, il y a **une élection partielle en Alberta le 23 juin.**, nous avons des technologies qui nous permettent d'aider nos voisins à faire le bon choix. car aujourd'hui, **les fascistes** sont partout, surtout cette **Danielle Smith** d'Alberta, pour s'accrocher au pouvoir, est prête à courtiser **le criminel Trump**. Elle utilise des tactiques pour chercher des votes parmi **les citoyens qui ne sont pas bien informés**. c'est donc simple, si un des membres de notre famille s'est lié d'amitié avec **la mafia**, tôt ou tard nous aurons des problèmes, alors s'il vous plaît, si vous avez un peu de temps **d'ici le 23 juin 2025**, aidez le **NDP** à faire élire ses candidats dans 3 régions: **Olds-Didsbury-Three Hills**, **Edmonton-Ellerslie**, et **Edmonton-Strathcona**. Faites un don si vous pouvez, ou **portez-vous volontaire à distance pour faire comprendre aux Albertiens le parti UCP ne reflète pas leurs valeurs**. Par exemple, pendant que les citoyens canadiens se battent contre les tarifs douaniers injustifiés de Donald Trump, **Danielle Smith réapprovisionne les étals albertains avec de l'alcool américain**! Selon **Naheed Nenshi**, chef du **NDP** albertain. Pire encore, le Parti conservateur uni (PCU) s'apprête à rendre les vaccins contre la COVID-19 coûteux (le prix pourrait atteindre **110 \$ la dose**) et difficiles à obtenir, selon **David Climenhaga/albertapolitics.ca**. Alors mes amis, aidons-nous nous-mêmes en l'aidant!

*)

Naheed Nenshi : The criminal felon Donald Trump increased tariffs to 50% on steel and aluminum, affecting Canadian jobs. **Danielle Smith's** response? Restocking American booze back on Alberta shelves! She can't do anything that Trump might not like. She's a terrible negotiator and can't or won't stand up for Canada.

*)

David J. Climenhaga: In classic Friday afternoon bad-news dump, UCP moves to make COVID vaccines expensive and hard to find.

*)

Brian Mills : The massive "no Kings" demonstrations/rallies yesterday across the USA were heartening and depressing at the same time. I applaud each and every soul participating, but am saddened that it's come to this state too. Cda, & especially Alberta, beware! **DON'T get us into the same situation!** #ABpoli

Brian Mills @preambulator.bsky.social Reply to David J. Climenhaga
 The UCP desire to make Covid vaccines both expensive and hard to get for most Albertans is irresponsible and repugnant! Expect that they'll receive legal challenges under the Canada Health Act. It's one big distraction after another with those incompetent clowns! AB deserves so much better! #ABpoli

Brian Mills : Danielle Smith gets caught taking hockey tickets & meddling in medical contracts, so diverts attention with threats of breaking with Canada. Doesn't go well so diverts again with coal mining threat. Goes very badly, so diverts once more with Covid vaccine denials. **See how this works?** #ABpoli
